

NICO NANOBUBBLE GENERATOR FOR HEALTH & WELLNESS

Indulge in a new era of wellness where **NICO Nanobubble Technology** deeply cleanses, refreshes, and restores your body naturally.

ABOUT THE INNOVATION

WHAT ARE NANOBUBBLES?

Nanobubbles are ultra-fine bubbles less than 200 nanometers, invisible to the naked eye, capable of penetrating deep into skin and scalp. Unlike normal bubbles, nanobubbles:

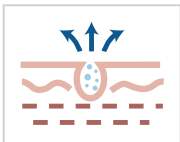

- Stay stable in water for hours, even months
- Release oxygen directly into tissues
- Improve absorption of essential nutrients
- Break down impurities at the nanoscopic level

WHAT MAKES NANOBUBBLES EXTRAORDINARY?

400 times smaller
than a human hair (100,000 nanometers thick).

250 times smaller
than skin pores (which range from 30,000 to 50,000 nanometers), allowing deeper penetration into tissues.

80-90 times smaller
than a red blood cell (about 7,500 nm), making it easier for them to travel through capillaries and tissues.

Nanobubble
less than 200 nanometers

SPA EXPERIENCE

NICO transforms every bath and therapy pool into a natural oxygen chamber.

The result:

- Deep tissue oxygenation & relaxation
- Promotes detoxification & circulation
- Accelerates post-therapy recovery
- Provides natural antibacterial cleansing

Oxygen Nanobubbles elevate hygiene to a new standard, effortlessly.

Specially developed for: Luxury spas & salons, Wellness resorts & clinics, Physiotherapy centers, Fitness center, Float therapy pools, Home spacare

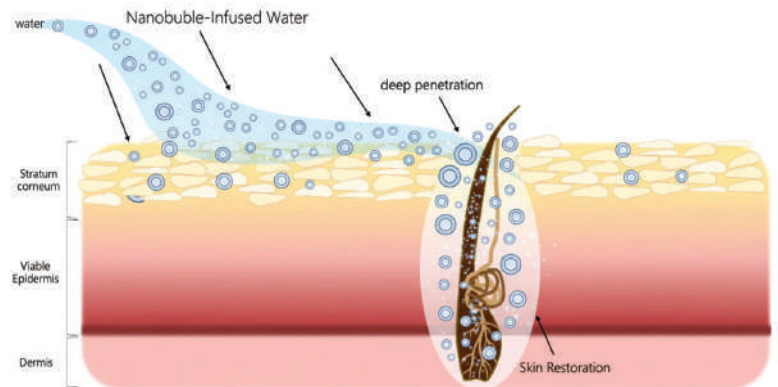

HAIR & SCALP CARE

Oxygen for Hair Vitality

NICO's oxygen nanobubbles revitalize scalp and follicles naturally with no chemicals & residue.

- Deep scalp cleansing (removes oil, dandruff & pollutants)
- Improves blood flow to follicles
- Enhances nutrient absorption for growth
- Adds natural shine & softness

Specially developed for: Salons, Hair clinics, Home haircare, Dermatology centers

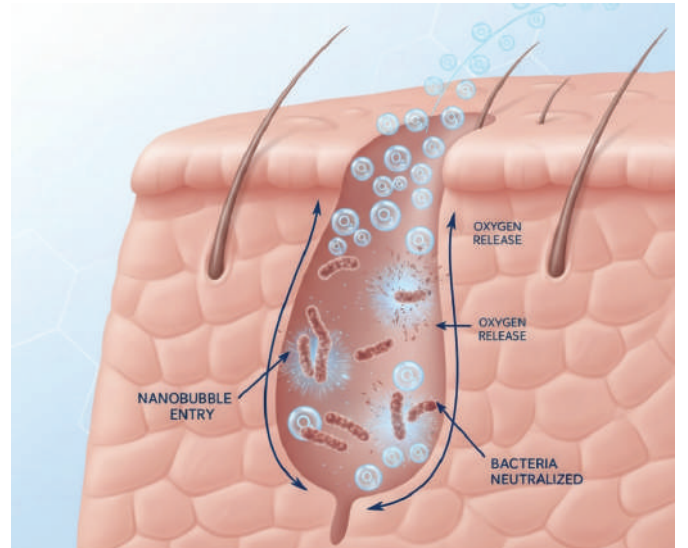

SKIN & BEAUTY CARE

Oxygen Dermal Treatment

Oxygen nanobubble-infused water penetrates deep into pores to restore skin balance, texture, and glow.

- Deep cleansing at cellular level
- Brightens complexion naturally
- Enhances collagen production
- Reduces acne, inflammation & irritation
- Increases hydration without harsh chemicals

Specially developed for: Skin spas & beauty salons, Dermatology clinics, Facial treatment units, Home skincare

WHY CHOOSE US?
