Where Wellness Meets Technology

Chlorine-Free Pools, Enriched with Oxygen

NICO ushers in a new era of aquatic well-being.
Ultra-fine nanobubbles enrich every drop, creating a soothing, oxygen-infused,
spa-like experience that feels naturally pure and deeply refreshing.

WHY NANOBUBBLES ARE EXTRAORDINARY?

400× Smaller than a Human Hair Strand

Penetrates hair follicles for natural cleansing and shine.

250× Smaller Than Skin Pores

Reaches deep into pores to restore balance, texture, and glow.

Neutral Buoyancy

Nanobubbles stay in the water for hours, continuously purifying the entire pool.

High-Zeta Potential

Breaks down contaminants, destroys algae, and prevents biofilm formation.

Super Oxidation Power

Provides natural sanitation stronger than chlorine, without chemicals or irritation.

Enhanced Purification with Oxygen & Ozone Nanobubbles

Water That Feels as Clean as It Looks

Our ultra-fine nanobubbles, just 50–200 nm, infuse water with oxygen at a molecular level, promoting deep hydration and a naturally revitalizing experience for the skin.

OXYGEN NANOBUBBLES FOR SWIMMING POOLS

The Future of Crystal Clear Water Without Chemicals

Higher dissolved
oxygen levels

Superior water
transparency

Faster breakdown of
sweat, oils & organics

Natural
deodorization
